Thank you.
Thank you for showing up.
Thank you for celebrating the small joys and big wins, finding creative ways to fundraise, advocating for the mission of Outreach, sharing our story, being a mighty voice for this important work and partnering with us to support local leaders and community-led groups who are developing lasting solutions to poverty-related issues.

We envision a world where communities are working together to overcome the challenges of chronic poverty and your partnership makes this vision a reality. Thank you! We are proud to present you with this partnership update so that you can get a glimpse of the good that your generosity makes possible by choosing to support our emergency fundraising efforts for communities impacted by COVID-19 throughout 2020.

Finally, we’ve also enclosed a recognition gift as a token of our appreciation for your continued support! We hope that this gift finds a place where it can be proudly displayed and shared with those that made this possible.

2020 was a challenging year for all of us, but if anything, we’ve learned that together we can do hard things. Thank you for your continued partnership. Through grace and grit, we will continue to change the world together. From everyone in the Outreach family, thank you for your trust and support. You make so many good things possible!

We hope you enjoy this March 2021 edition of the Partnership Program Updates! If you need more resources to share with your group, please visit our website at outreach-international.org/resources. If you have specific questions about your giving report or just want to say “Hello!”, please contact Marsha Penrose at m.penrose@outreachmail.org.

Maskimum Empowerment

Here’s something extraordinarily cool: during Spring/Summer 2020 Outreach community members in Africa started mask-making en masse; keeping themselves and their neighbors safe (and stylish!) while bolstering their own experience and commitment to one another in the process.

Here are some of the extraordinary women who devised this amazing work!
Recently, the mask-making experts from Malawi teleconferenced with staff from the Philippines for some real-time tailoring! Together, they measured, cut, and sewed new masks for themselves, then shared the how-tos with the rest of their team!

Here’s to creative solutions and finding ways to stay happy and healthy, together! Go team(s)!
